

Pricing Guide

Midland Technical Translations (UK) Ltd

Languages offered

All languages are offered for translation and interpreting. We can help you decide the most appropriate languages for your project if needed. For example for Belgium, you may need Flemish, Dutch, French or German, depending on your intended audience.

Translation

We charge according to one of four Language Groups, for example Western European languages generally fall into Group 1, the cheapest group and Asian and Middle Eastern languages fall into Group 4, which is more expensive.

The cost for translation is calculated on the Language Group rate per thousand source words. For texts less than 300 words a minimum charge may apply.

A small admin charge may be made for handling documents in non-editable formats, for example pdfs, scanned documents or handwritten text.

For certain projects, we are able to offer discounts where we are able to make use of CAT translation memory tools. Not all projects are suitable but we would be happy to discuss this with you.

Interpreting

Interpreting is available as an hourly, half day and full day service. Travel costs and other additional fees (eg accommodation, refreshments etc) are charged at cost.

We provide interpreters for business meetings, conferences, medical appointments, court cases and training courses as well as many other events. We are also able to supply BSL interpreters.

Typesetting

Typesetting charges depend on the complexity and size of the document in question – we would need to see the files before we could quote.

We offer typesetting in all languages and most popular formats, for example Adobe InDesign, Quark, Illustrator etc

We are happy to set anything from a simple business card to a full range of catalogues.

Guaranteed Express Service

If you need a translation in a rush, we can probably help. By using translators in different time zones or teams of linguists working together we are able to help most clients with their time-critical jobs.

Large Translation Projects

Our Large Translation Project team will be happy to discuss your requirements if you have a project over 500,000 words.

Please contact Sue Clark, MD in the first instance.

Other services

Other services such as proofreading, research, transcription, voiceovers, subtitling etc are available on request. An individual quote will be prepared for each project, usually on a time basis.
