

Midland Technical Translations Company Overview

www.midlandtechnical.co.uk

Introduction

Midland Technical Translations (MTT) has been providing specialist translation services to companies throughout the world for over 35 years. We work with a wide range of industries, translating key documents to help ensure clear communication.

When technical translation is needed, speed, accuracy and prompt delivery are essential. Midland Technical Translations has a reputation for combining these core requirements with a standard of personal service that is second to none.

MTT offer professional translation services for all industries, however we specialise in the technical, marketing and legal sectors. We only employ native translation experts with real experience of the subject matter involved.

Contact the team at Midland Technical Translations now to discuss your requirements and see how we can translate your business into a global success.

Quality Assurance

Quality is right at the heart of what we do here at MTT. Every project is managed by our experienced in-house team to ensure the best linguists are selected, with the most appropriate experience and qualifications. We work hard to ensure your translations are always delivered on time, to specification and within your budget.

We are passionate about building customer relationships. By working closely with you right from the start to understand the detail of your translation requirements, we can help ensure that your intended message is not misunderstood, and that your specific terminology is used.

- Our rigorous selection process ensures we provide you with the most suitable and experienced professional linguists to work on your project.
- Native-speaking linguists are selected according to a strict set of criteria, with degree level qualification and industry experience being the minimum requirement. This ensures your projects will be handled by a culturally sensitive, experienced professional, with intimate understanding of your technology and industry. You'll even be invited to talk directly to your translator to get a feel for their experience and capabilities.
- At MTT we always strive for excellence. Our ISO certification underpins all our processes, ensuring that they function efficiently, are regularly reviewed and are continuously improved.

Accreditations

- EN ISO 9001:2015 – certification held continuously since 1996

From full website translation to creation of mini-sites for target markets in any language.

Social Media

Translation of social media blog posts and keywords into any language.

I have been working with MTT for over a year now and always find them to be 100% professional, reliable and flexible if projects are required with little time available. I would highly recommend them to any business needing translation work.

Suzy O'Shea,
Marketing Manager - Fullwood

We, at Chemique, are very pleased with the level of service delivered from MTT. The translations are accurate, quick and at a competitive price. But above all, the quality of service and professionalism of the MTT team is an example for all of us to follow. We are looking forward to working together in future projects.

Chemique

I was very pleased with the process overall - I particularly liked the fact that your translators asked questions about the product in order to ensure they had the best understanding and, presumably, so they could make the most appropriate translation.

When I was looking for companies to use I liked the fact that you used native speakers with a technical background as opposed to just offering highly educated language speakers.

All went well and we will be happy to use you again.

Neil Stephenson,
Product Development Manager - Certikin
